EDUCATION

Maharaja Agrasen Institute of Technology
Bachelor of Technology – Computer Science and Engineering

Delhi, India
2023 – 2027

WORK EXPERIENCE

Haqdarshak

June – August 2025

Backend Developer Intern

- Engineered and deployed a scalable **AI-Powered Knowledge Sharing Platform** (StackOverflow-style) centralizing institutional knowledge for **40,000+ women** agents to resolve welfare scheme queries.
- Implemented **RESTful APIs** with **Role-Based Access Control** (Agent/Admin), **JWT** authentication, and an Admin Moderation System with dashboards, reducing content quality issues by **30%**.
- Built a multilingual conversational **RAG chatbot** using **Docling** (doc ingestion), **ChromaDB** (vector search), and **Sarvam AI (S2T/T2S)** translation supporting diverse Indian regional languages.

SKILLS SUMMARY

- Languages** : C, C++, JavaScript, SQL
- Frameworks** : ReactJS, NodeJS, ExpressJS, TailwindCSS, Material UI
- Databases** : MySQL, NoSql(MongoDB)
- Core Concepts**: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, REST APIs, System Design, JWT, MERN Stack
- Soft Skills** : Leadership, Event Management, Public Speaking, Strategic Thinking

PROJECTS

Wanderlust | Node.js, Express.js, MongoDB, Bootstrap, Passport.js

[Project Link](#)

- Designed scalable **RESTful APIs** using **Express.js** and **MongoDB** for efficient data management across listings, bookings, and user profiles, reducing query latency by 35%.
- Engineered a **full-stack** web application enabling users to create, manage, and review listings with seamless **CRUD** operations supporting 500+ concurrent users.
- Implemented Cloudinary integration for image upload and management, **improving media upload efficiency by over 40%** compared to local storage solutions.
- Built **secure user authentication and session management** using **Passport.js** with login, registration, and route protection ensuring robust data security.

StudyNotion | MERN Stack, Redux, Razorpay, Cloudinary, JWT

[Project Link](#)

- Engineered a full-stack Ed-Tech platform using MERN stack (React, Node.js, Express, MongoDB) delivering content creation, consumption, and rating features for students and instructors.
- Developed robust RESTful APIs with JWT/Bcrypt authentication and Razorpay payment integration, enabling secure course management and media handling via Cloudinary.
- Implemented dynamic, responsive frontend using ReactJS/Redux and Tailwind CSS, supporting distinct functional flows for Students and Instructors with optimized state management.
- Scaled backend architecture using Express.js to handle concurrent API requests, improving platform throughput and maintaining sub-200ms response times.

Weather Widget | ReactJS, Material UI, OpenWeather API

[GitHub](#)

- Built a responsive weather widget fetching and displaying real-time weather data for any city using the OpenWeather API with a clean Material UI interface.
- Optimized API call frequency using debouncing and caching techniques, reducing redundant network requests by 50% and improving user experience.
- Designed mobile-first responsive layouts using Material UI components ensuring seamless rendering across devices and screen sizes.
- Implemented error handling and loading states for API failures, improving application reliability and user-facing feedback for edge cases.

ACHIEVEMENTS

- Achieved **Rank 5410 out of 25,604** participants in DSA contest on LeetCode. [Link](#)
- Open Source Contributor at Code4GovTech** (Govt. Initiative): Selected as **1 of 105 out of 4,200+** applicants to build Haqdarshak's AI-based Agent Support Platform using NLP and RAG. [LinkedIn](#)
- Solved **260+ DSA problems** on LeetCode and Codeforces demonstrating strong problem-solving and algorithmic thinking skills.
- Secured **5th place out of 200+ teams** at IIIT Delhi HackFinance Fintech Hackathon. [Certificate](#)
- Ranked **Top 22 out of 250+ teams** at CodeHive Blockchain Hackathon at IIT Delhi. [Certificate](#)
- Runner-up** at IIMT College Hackathon leading a cross-functional team of 4 members. [Certificate](#)

CERTIFICATES

- Oracle Cloud Infrastructure AI Foundations Associate** – Certified in core AI/ML concepts on OCI. [Certificate](#)
- Postman API Fundamentals** – Hands-on training in REST API fundamentals and HTTP methods. [Certificate](#)
